TO: Customers of Clackamas River Water

SUBJECT: Maplelane Rd. Waterline Construction Update

Dear Customers,

CRW has planned and is preparing to construct a waterline replacement project on Maplelane Rd. and within an easement between Maplelane Rd and Anderson Rd.

The CRW Board of Commissioners awarded a contract for the project on July 14, however, due to current global and local manufacturing constraints the project will be delayed until later this year. Current estimates for pipe delivery place project start approximately in December of 2022.

An additional notice to the affected customers will be provided when a firm construction schedule is determined.

We appreciate your patience. If you would like further information or have any questions regarding the project, please contact us at 503-722-9220.
